

Research Projects (IP-06-2016) Additional Criteria (final evaluation)

Evaluation panel should give a final opinion for each project proposal (which will be sent to the applicant). The final opinion should include the following elements:

Please write your critical opinion on the overall strengths and weaknesses of the project proposal, especially regarding the importance and scientific quality of project proposal, principal investigator and research group.

Please write a short explanation.

INSTITUTIONAL SUPPORT

Does the institution provide the necessary support?

Please write a short explanation.

FINANCIAL PLAN

Are all items justifiable and necessary in the context of implementation of the specific research (do they justify all the project requirements)?

Please assess the adequacy of planned amounts?

Please write a detailed explanation.

ETHICAL ISSUES

Does the project include any ethical issues or concerns? Are there any other issues that should be addressed (e.g. potential hazards, whether the results could be misused in relation to humans, animals or the environment)? If so, do the applicants offer satisfactory solutions/insurances?

Please write a short explanation.

FINAL OPINION AND RECOMMENDATION

Please write a short final opinion on the project proposal.

Recommendation:

A – Project proposal is recommended for funding since it meets all required criteria or requires minor changes.

B – Project proposal is not recommended for funding since it does not meet the required criteria and requires certain major changes.
